TIME FRAME FOR DELIVERY

When final drawings are approved and 50% of the project total is received, your project will be placed on the calendar to begin immediately *upon completion of any jobs already in progress*. From that point forward, pRottertype expects to complete your project within approximately _____ business days.

* Contracted work with a grand total over \$25,000 and/or in progress for more than 12 weeks may require additional draws

† Add-ons and change orders are billed separately on a weekly basis and at the end of the job

However, this time frame can be affected by multiple factors outside pRottertype's control, including material delays, rain, cold temperatures and a variety of other unforeseen obstacles. **No delivery date is promised.** Upon completion, your project will be installed on a mutually agreeable date.

DELAYS

In the event that pRottertype's contracted work is forced to stop for one day or longer due to job-related circumstances beyond pRottertype's control (i.e., other contractors or design changes holding up the job), pRottertype reserves the right to accept other work in the interim. In that case, your job will resume upon completion of the other work. You may pay pRottertype's regular daily rate of \$600 (\$1,000 per day if a helper is assigned to the job) during the delay to preserve priority.

COLOR MATCHING

Color matches incur a minimum charge of \$150 for the first two attempts. Additional attempts are billed at \$150 each. Color match requests require an actual portable sample to match *or* specific manufacturer's color details. Please be aware that a color's appearance will vary on different species of wood. Color match charge includes delivery of the samples.

EXTRAS & CHANGES

Contracting is per approved drawings and notes. pRottertype allows for a standard construction deviation of $\frac{1}{4}$ " **per 8' span** on walls, floors and ceilings.

The most costly thing that can happen is a change after work begins. Changes or additions to approved scope and/or drawings *will* affect cost. Careful planning is the most effective strategy to keep costs down.

If this project is part of a remodel of an existing space, please understand that there is no way for pRottertype to know beforehand what condition the space will be in when it comes time to install this project. pRottertype cannot predict the quality of other contractors' workmanship, nor what we may find behind your walls. Every project is unique. The information and prices in this contract are presented in good faith but are by no means final or binding. The actual price could be higher or lower, depending on the actual time and materials involved.

Changes are billed at \$75 per man hour for design and construction, plus materials. Materials are billed at cost plus 20%. \$75 minimum charge for each change/addition. All change orders must be signed off by you and pRottertype. Email sign-off is considered equivalent to paper sign-off.

INSTALLATION

Installation is for contracted work only. Under no circumstances will pRottertype be responsible for the removal of existing furniture or the installation of any customer component not included in the actual work contracted. Customer will provide installation space ready and clear for installation of contracted work. pRottertype will under a separate agreement remove customer furniture if customer is unable to do so.

LIMITATIONS

pRottertype is not responsible for any plumbing, electrical, flooring, painting, decoration or other construction work unless specifically stated in the design specifications and construction details that are part of this agreement. pRottertype will not be held liable for reasonable damage to paint, wall covering,

Any claim or cause of action arising out of the terms of the contract or warranty must be filed in a court of competent jurisdiction within the period of the warranty previously stated. Any warranty work performed during the warranty period does not extend the warranty any further than was previously stated in terms of the time from the date of the contract. All aspects of this warranty are void if a person or company other than pRottertype performs or re-performs any work within the scope of the warranty. The following are excluded from warranty by pRottertype: a) Movement or misalignment of cabinets due to settling or movement of foundation floors, walls or ceilings. b) Damage to woodwork, finish, or any defect due to exposure to excessive moisture, heat, humidity, or cold. c) Wood movement, raising of grain, or any other problem or defect arising from exposure to moisture at the customer's job site if cabinets or woodwork are delivered unfinished or unsealed.
